

INSTRUCTIONS FOR POST VASECTOMY COLLECTION (MAUI)

Your doctor has ordered a post vasectomy. ***Please follow the instructions on this sheet to ensure accurate results. Circle the laboratory to which you are submitting the specimen.***

SPECIMEN COLLECTION INSTRUCTIONS

- To ensure accurate results, do not ejaculate for a minimum of 2 days and a maximum of 7 days before you give the semen specimen.
- To collect the specimen, please masturbate. Other methods of collection may result in loss of part of the ejaculate. Do not use lubricating oils, foams or gels. They may contaminate the semen.
- Semen should be collected in sterile cups that the lab will give you.
- Entire volume of ejaculate should be collected and submitted for examination.
- Write Your Last name, First name, Date of Birth, Date and Time the specimen was collected on the container and on this form.
- The semen specimen and the lab requisition must be brought to one of the laboratories listed below within 45 minutes. Only the CLH laboratory locations listed below are prepared to receive semen specimens. Testing must be completed within 1 hour after collection.**
- Keep semen specimen at room temperature after collection and during transport.

I, _____, _____, _____ have collected and transported
